Wet Vac with Auto Discharge

Vortex

The **Eagle Power Products** line of polyethylene and stainless wet/dry vacuums now includes a wet vac with automatic discharge. Discharging liquid simultaneously with pick-up eliminates the time-consuming task of dumping every few minutes during a large job. On jobs where the liquid needs to be segregated, it can be directed by hose to a holding or recovery area. The 19-inch squeegee tool greatly speeds water pick-up from any area. Comes with 14-inch tool and 10-foot hose. Motor insulation is in strict accordance with CSA and CENELEC regulations, and the heads feature anti-flame material.

Our **OPTIONAL**, front mounted, wheel-powered rotary squeegee – the **VORTEX** – facilitates faster recovery over large areas.

Technical Data – S6415DS

Vacuum			
Air Flow	C.F.M.		101
Waterlift	Inches		87
Motor	H.P.		1.5
Amps			10
Pump			
Motor	H.P.		.25
Discharge	GPM		40
Amps			8
General			
Canister	Capacity		13.2 Gal
Suction Hose	Size		1.5" X 10"
Electric Cord	Length		37 ft.
Weight	Net		49 lbs.
