IPC Corporation is a member company of IPC (Integrated Professional Cleaning), which is one of the largest manufacturers of cleaning equipment in the world. This alliance provides for a broad range of innovative products to meet the needs and demands of the cleaning industry.

IPC offers one of the most complete lines of cleaning equipment on the market today. All of the products provide alternatives and improvements to the way work is done in our industry. Check out IPC and see why it has become one of the dominant forces in the U.S. cleaning industry.

Innovative Design, **Better Choices.**

SmartVac™

The **SmartVac™** is in a category all of its own and will change how floor surfaces are maintained. The battery-operated **SmartVac™** will vacuum carpet and sweep floors at incredible productivity rates, automatically adjusting to any surface, and even cleans its own filter. Throw away your old uprights and see a return on investment in as little as a few months.

- 24" - 32" battery vacuum and sweeper
- Multi-surface vacuum and sweeper
- Cleans up to 41,000 sq. ft./hr.
- Battery operated up to 2.5 hours
- Genius' technology—just choose the cleaning mode
- Highly maneuverable
- Picks up large debris with no worries
- Digital hour meter to measure the productivity
- Adjustable handle for easy transport and storage

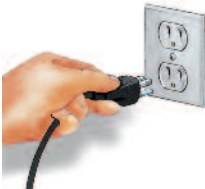

SmartVac™ 464
24" Battery Vacuum Sweeper

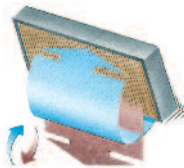

Easy to use with two preset work programs and a display with self-diagnosis data, battery charge status, and hour meter.

Vacuum shutoff for use when sweeping wet areas.

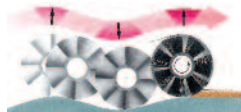

On-board battery charger. Enables the battery to be charged anywhere.

Self-cleaning filter with cleaning frequency linked to the selected work program.

SmartVac™ 664
32" Battery Vacuum Sweeper

The brush automatically adjusts to any type of carpet or hard surface floors.

Vacuum Sweepers

The **512/712 Vacuum Sweepers** represent a revolution in the vacuum sweeping of carpets and hard surface floors. With their built-in battery chargers, large debris littergates, and battery run times of up to 4.5 hours, they bring a new level of productivity to floor maintenance.

- Cleaning rates up to 27,000-35,000 sq. ft./hr.
- Cleaning widths from 28" - 36"
- Battery or gas operated
- Built-in battery charger "Smarter Charger"
- From carpet to hard surface without adjustment
- Exceptional dry soil removal
- 5 micron dust control
- Easy to operate
- Robotically welded for maximum quality
- Electrical monitoring system will extend battery life
- High-efficiency filtration available

512
28" Cleaning Width

712
36" Cleaning Width

512R/712R Vacuum Sweepers

- Cleaning rate up to 51,000 sq. ft./hr.
- Cleaning width of 28" - 36"
- Built-in battery charger "Smarter Charger"
- From carpet to hard surface without adjustment

- Huge hopper capacity
- Heavy-duty chassis
- Easy to operate
- Robotically welded for maximum quality
- Dust filter replacement without tools

Genius Sweepers

Genius 1050 (Battery Operated)

The **Genius 1050** is the perfect step up to higher productivity from walk behind units. Small enough to go through a 32" opening but large enough to clean a 39" cleaning path.

- Up to 55,000 sq. ft./hr.
- 39" cleaning width
- Genius technology with 3 programmable cleaning modes
- Spin-on, spin-off brushes
- Patented self-leveling main broom
- Patented self-cleaning filters

Genius 1050
39" Cleaning Width

Genius 1404
58" Cleaning Width

Genius 1404 (Battery Operated)

The **Genius 1404** features a wide range of standard accessories and has the choice of three different brushing methods, providing an answer for even the most difficult cleaning situations.

- Cleans 82,000 sq. ft./hr.
- 58" cleaning width
- Climbs to 20% incline
- Genius technology with 3 programmable cleaning modes

TK500M
28" Cleaning Width

TK500M

The **TK500** manual sweeper is designed to be the easiest-to-use manual sweeper on the market. With a two-stage hopper system, it provides a level of dust control unusual in a manual sweeper. The steel frame provides long-term durability.

- Cleaning productivity up to 27,000 sq. ft./hr.
- 28" cleaning width
- One-hand operation
- Superior dust control
- Lightweight
- Large hopper capacities

The Ultimate **Green** Cleaning Machines

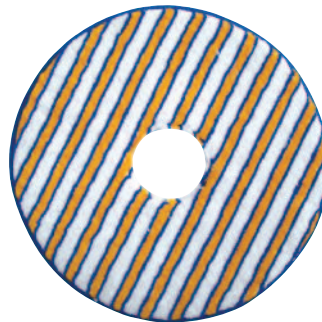

New Patented ECS Automatic Scrubbers. High Speed Microfiber scrubbing system uses less water, chemicals and time. **Dump and fills are a thing of the past!**

- Reduce water consumption 80-90%
- Reduce chemical consumption up to 80-90%
- Reduce labor time up to 30-50%

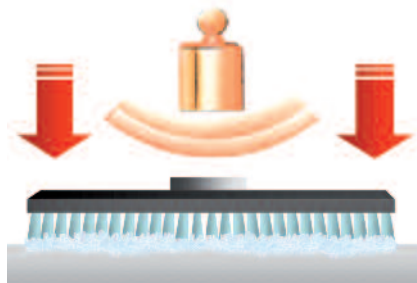

Patented Microfiber Scrubbing System—Designed to deliver the performance advantages of microfiber.

- **High Speed** (600 RPM), over 3 times faster than traditional scrubbers.
- **Limited Water** is needed to allow microfiber to work effectively.
- **Low Pad Pressure** allowing high oxygenation of fibers.

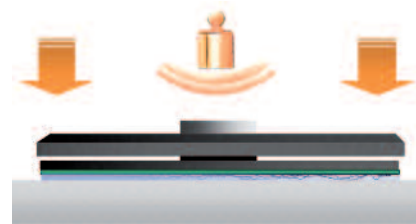

Equipped with 2 operating modes—High Speed Micro Scrub and Traditional Scrub.

More Pressure (180 RPM)

Brush/Pad

Less Pressure (600 RPM)

Microfiber

The **Greenest** Machine
on the Planet and in
your Budget!

Automatic Scrubbers

CT40 ECS BT50

10/13 Gallon, 20" Brush

The **CT40 ECS** High Speed Microfiber scrubbing system uses less water, chemicals and time. Never needs to be dumped or filled.

- On-board charger
- Patented 600 RPM Micro Scrub system
- Switchable to 200 RPM traditional scrub mode
- Reduces water consumption by up to 80-90%
 - Saves up to 12,000 gallons per year
- Reduces time 30-50%
 - Saves up to 400 working hours per year
- Reduces chemical consumption up to 80-90%
 - Saves up to 150 gallons of chemical per year
- Ergonomic Traction Drive
- Optional "Chem Dose" system

CT40 ECS BT50

CT70 ECS BT70

19/20 Gallons, 28"

The **CT70 ECS** Micro Scrub system offers incredible scrubbing performance and productivity. Uses a fraction of the water and chemicals of traditional scrubbers and cleans continually without dumping and filling.

- On-board charger
- Patented 600 RPM Micro Scrub system
- Switchable to 200 RPM traditional scrub mode
- Reduces water consumption by up to 80-90%
 - Saves up to 17,000 gallons per year
- Reduces time 30-50%
 - Saves up to 560 working hours per year
- Reduces chemical consumption up to 80-90%
 - Saves up to 210 gallons of chemical per year
- Optional "Chem Dose" system

New in 2010

CT70 ECS BT70

CT110 ECS BT85

29/30 Gallon, 32" Rider

The **CT110 ECS** offers incredible productivity. Clean continually without dumping and filling.

- Optional on-board charger
- Patented 600 RPM Micro Scrub system
- Switchable to 200 RPM traditional scrub mode
- Reduces water consumption by up to 80-90%
 - Saves up to 19,000 gallons per year
- Reduces time 30-50%
 - Saves up to 640 working hours per year
- Reduces chemical consumption up to 80-90%
 - Saves up to 240 gallons of chemical per year
- Optional "Chem Dose" system
- Squeegee automatically lifts in reverse

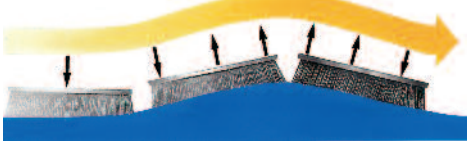

CT110 ECS BT85

Automatic Scrubbers

“Get Right Sized”—**Cleantime Automatic**

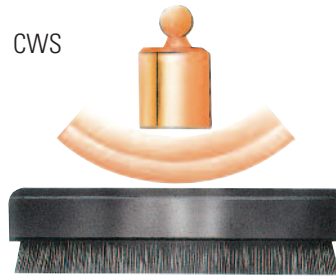

Scrubbers are specifically designed to meet the productivity needs of everyday cleaning and not the norms of the equipment industry. With a total of 21 automatic scrubbers, IPC Eagle will have the “Right Size” scrubber for any job.

SLS

SLS (Self Leveling System) uniform scrubbing guaranteed by the spring-activated floating head, which adapts instantly to even the most irregular surfaces.

CWS

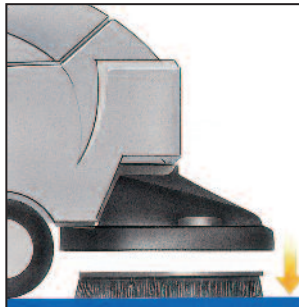

CWS (Central Weight System) balances the weight of the machine constantly on its center, allowing for increased maneuverability and productivity.

AFS

AFS (Anti-Foam System) exclusive anti-foam system uses air flow to protect the vacuum motor against foam.

Automatic brush attachment and release system (without hands or tools).

G25

G25

6.6 Gallons, 20” Brush Drive Battery & Electric

The **G25** battery or electric operated 20” automatic scrubber represents a new category for the cleaning industry. The unique injection molded design makes the **G25** lightweight, easy-to-use and the most cost effective scrubber on the market.

- Tank capacity: 6.6 gallons
- Scrubbing width 20”
- Self-leveling brush head
- Re-useable water system
- Compact and easy to transport
- Extensive running time

Automatic Scrubbers

CT40B50
20" Brush & Traction Drive

CT40

10/13 Gallons, 20" Brush & Traction Drive

The incredible compact size, large tank capacity, and ease of use will offer high productivity and performance with very little training.

- On-board charger
- Tank capacity: 10/13 gallons
- Scrubbing width 20"
- Self-leveling brush head
- Anti-foam system
- Spin-on/spin-off brush
- Brush and traction drive

CT70

19/20 Gallons, 20", 24" & 28"
Brush & Traction Drive

The **CT70** provides the productivity of scrubbers twice its size in a very small compact design. The simplicity, ease of use, and maneuverability of the **CT70** is very unique to scrubbers in this range. Even with a very compact size, the **CT70** will clean up to 50,000 square feet in one charge.

- On-board charger
- Tank capacity: 19/20 gallons
- Scrubbing width 20", 24" and 28"
- Battery operated
- Floating brush system
- Anti-foam system
- Exclusive V squeegee
- Spin-on/spin-off brush (20" only)
- Superior balance and maneuverability
- Brush and traction drive

CT70
20" Brush & Traction Drive

CT70
24" and 28" Traction Drive

Automatic Scrubbers

CT90

24/25 Gallon, 28" & 32" (Traction Drive)

The **CT90** is designed to clean large areas fast but maintain the maneuverability and ease of use of the other Cleantime automatic scrubbers. Even with a very compact size, the **CT90** will clean up to 65,000 square feet in one charge.

- Optional on-board charger
- Tank capacity: 24/25 gallons
- Scrubbing width 28" and 32"
- Battery operated
- Floating brush system
- Anti-foam system
- Exclusive V squeegee
- Traction drive

CT90BT70
28" & 32"
Traction Drive

CT100

26/29 Gallons, 28" & 32"

The **CT100** is available in 28" and 32" scrubbing widths. Through innovation, the **CT100** offers high productivity in a compact design, superior maneuverability and outstanding cleaning performance.

- Tank capacity: 26 gallons
- Scrubbing width 28" and 32"
- Curved squeegee
- Anti-foam system
- Compact design
- Self-propelled forward and reverse

CT100BT70/85
28" & 32" Scrubbing Widths

CT110

29/30 Gallon, 28" & 32" Rider Scrubber

The **CT110** is an incredibly small rider scrubber but with a 30 gallon tank offers much higher productivity than other rider scrubbers in its range. Designed to offer high productivity and performance with very little training.

- Optional on-board charger
- Optional "Chem-Dose" system
- Tank capacity: 29/30 gallon
- Scrubbing width 28" and 32"
- Three pre-programmed work settings
- Automatic solution and speed reduction on turns
- Self-leveling brush system
- Exclusive squeegee system

CT110
28" & 32" Rider Scrubber

Automatic Scrubbers

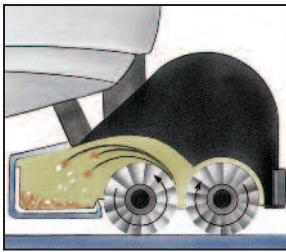

CT160
28", 32" or 36" Scrubbing Width

CT160

40 Gallons, 28", 32", 36" & 30" Cylindrical

The **CT160** scrubber is designed for commercial and warehouse cleaning applications. It utilizes our Genius technology to make it the easiest to use rider on the market. Even the brushes are connected and disconnected automatically.

- Optional on-board charger
- Scrubbing width 28", 32", 36" and 30" cylindrical
- 40-gallon capacity
- 4.5 hour run time
- Ultra-dry squeegee system

The CT160 Cylindrical is equipped with 30" dual counter rotating brushes to sweep, wash, and dry in just one pass. Ideal for grouted tile and warehouse floors.

CT160
30" Cylindrical

T10/T15 Cylindrical Scrubbers

The **T10/T15** have been specifically designed to give unequalled performance in maintaining and restoring grouted and textured floors.

- Two sizes, 10" and 15" to fit any application
- Thoroughly deep cleans porous and textured surfaces
- Restores as it cleans
- Scrubs and dries in one pass in either direction
- Cylindrical design outperforms traditional methods
- Safe and easy to use, even in restoration

T10
1.3 Gallons,
10" Cylindrical

T15
4 Gallons,
15" Cylindrical

Floor Machines

Low Speed

These 17" and 20" floor machines were designed to handle everyday use and abuse. The rotationally molded polyethylene base will absorb impacts and maintain a good appearance for along period of time. The glass-filled switch box and the trigger handle have incredible strength.

- Heavy-duty, 1.5 HP motor; dual capacitor
- Stainless Steel base
- 175 RPM
- Steel, triple planetary gears
- 50 ft., heavy-duty yellow ST cord
- Chrome plated steel handle
- Quick and easy handle adjustment

FM17/FM20
17" & 20"

High Speed

The **B1500/B2000** high-speed burnisher will provide the high-gloss results that are expected in today's floors. Equipped with a Flex pad driver at 2000 RPM, the **B1500/B2000** will provide high productivity and optimum performance.

- 20" Belt Drive 1500/2000 RPM burnisher
- Stainless Steel brush cover
- Multi-V belt drive reduces load on bearings and extends motor life
- 19" flex pad driver for increased productivity
- Easy to release cord wrap by just lowering the handle
- 75 ft., heavy-duty yellow ST cord
- Chrome plated steel handle
- Rear transport wheels for easy turning and mobility

B1500/B2000
20" Belt Drive

Eagle Pro Propane Burnisher

The **Eagle Pro** line of propane burnishers are designed with the perfect balance of performance and productivity. The offset body allows for easy access under racks and into corners. The unique pad angle eliminates side torque and increases pad pressure.

- Available in 13 and 17 HP Kawasaki engines
- Sizes include 21", 24" and 27"
- UL and CGA approved, Meets CARB and EPA emissions standards

Eagle Pro
21", 24" & 27"

Fastract™ Extractors

SC4/SC7/SC12
12", 17", 19" Cleaning Widths

SC4/SC7/SC12

These 4, 7 and 12 gallon self-contained extractors offer portability, ease of operation, and performance. With up to a 19" wide cleaning path, high-speed brush, and dual vacuum motors, the **SC7** and **SC12** can clean and dry carpets fast!

- Tank capacity: 4, 7 and 12 gallon models
- Cleaning paths 19" (SC12), 17" (SC7) and 12" (SC4)
- Patented, 4-wheel design for excellent balance and turning radius
- Self-adjusting, self-leveling brush eliminates manual adjustment
- Dual buckets with the SC12 for safe lifting and dumping of solution

Job Extractor
3 Gallon Fresh Water Tank

Job Extractor

The **Job** is the perfect tool for cleaning and spotting of carpet, upholstery and hard surface floors.

- For carpet, upholstery and hard surfaces
- Powerful 1.5 HP vacuum motor
- Polyethylene for durability
- 6-caster design for easy mobility
- Comes equipped with hose and tools for carpet, upholstery and hard surfaces
- 3-gallon fresh water tank
- Locking hose-in-hose with swivel cuff
- 9-gallon recovery tank

BX2
2 Gallon Tank Capacity

BX2

The only small extractor truly designed to be a spotter. With a built-in transport handle, molded-in holders for spray bottles, and a place to wrap the cord and hose, it is ready to clean those spots whenever you are!

- At 17 pounds, it is compact and maneuverable
- Tank capacity: 2 gallons
- Built-in handle and 6" wheels makes it easy to transport
- Built-in spray bottle holders transform the machine into a spotting system
- Only upright-mounted vacuum motor on the market to ensure longer motor life

BX12/BX12 w/heat
12 Gallon Tank Capacity

BX12/BX12 w/heat

The **BX12** is designed to provide professional cleaning performance. With a standard 150 PSI pump, dual vacuums, and an optional in-line heater, the **BX12** has the power to reclaim the dirtiest of carpets.

- Powerful, 150 PSI pump and dual vacuum motors with 150" water lift provides for optimum cleaning
- Available with or without built-in heater
- All motors are mounted to a metal baseplate to guarantee long-term durability
- All fittings—such as the strain relief, quick disconnect, etc.—are fully protected, eliminating breakage during transport, storage and operation
- Intercooler cools the motor compartment, extending motor life

Vacuums

Wet/Dry Vacuums
Up to 24 Gallon Tank Capacity

Wet/Dry Vacuums

A full line of polyethylene and steel tank wet/dry cleaners for dirt and liquid pickup available with a variety of options including HEPA equivalent filters. Large area, front-mounted squeegee and a variety of tool options.

- Tank capacities up to 24 gallons
- 9-piece standard tool package and hose
- Polyethylene, polypropylene, and steel tank options
- Powerful 1.5 HP single or dual vacuum motors
- Automatic pick up with attachable squeegee tools
- Private label available
- Optional front-mount squeegee

Optional front-mount squeegee

Auto Discharge Wet Solution Vacuums
18 or 24 Gallon Tank Capacity

Auto Discharge Wet Solution Vacuums

This is the perfect restoration and clean-up tool. This unit allows for vacuuming of wet solution, while pumping out the solution at a rate of 40 gallons per minute.

- Tank capacity: 18 or 24 gallons
- Pumps out up to 40 gallons per minute
- Direct discharge for containment
- Comes standard with 10' hose, 2-piece curved lance, and 19" squeegee tool for water pick up
- Steel and polyethylene tank
- Eliminates dumping
- Accommodates front-mounted squeegee

Hospital Canister Vacuums
5 Gallon Tank Capacity

Hospital Canister Vacuums

The **Hospital** has the most powerful vacuum in its class. It was designed for where high filtration and sound sensitivity is a must, but is perfect for any facility requiring high-performance vacuuming.

- Powerful 1000 watt super high-speed vacuum for deep cleaning
- Extra quiet for sound sensitive environments
- Optional motorized power head
- 4-stage filtration

EVO Canister Vacuums
4 Gallon Tank Capacity

EVO (Dry/Wet) Canister Vacuum

The **EVO** is small in size but very large in performance. It was designed where high filtration and sound sensitivity is a must, but is perfect for any facility requiring high-performance vacuuming. Its wet vacuum capability gives it the versatility to pick up spills and wet debris.

- Powerful 1000 watt super high-speed motor for deep cleaning both wet or dry
- Extra quiet for sound sensitive areas, less than 57 dB(A)
- Optional motorized power head
- 3-stage filtration
- 4 gallon capacity wet or dry

Backpack Vacuums

Backpack Vacuums

- 3-position hip adjustment for wider or narrower hips
- Ergonomically designed harness with multi-adjustable setting for optimum comfort
- Lightweight – only 11 lbs.
- Hip mounted switch results in easy on/off
- 3-ply composite filter, with antimicrobial agent, allows greater air flow so that bag can fill to maximum capacity!

Portable Air Mover

Portable Air Mover

- Long Lasting and Durable!
- 3-speed drying with 1/2 HP motor
- 2500 CFM
- Easy to stack for storage or transport
- Available with optional carpet clamp
- Thermally protected motor
- Adjustable to four different positions for drying carpets, furniture, curtains, ceilings, ANYTHING!

Pressure Washers

Cold Water Electric

G Power

The **G Power** is a professional grade self contained cold water pressure washer in a light weight and compact design. The 110 volt **G Power** is a **green alternative** to gas engine versions.

- 1500 PSI, 2.0 GPM – 110V
- Professional axial pump
- Brass head, ceramic plungers
- Total stop (without delay)
- Rated 3-4 hours per day usage
- Built-in hose reel, 40' hose
- Two tank chemical dispenser

Evolution X3

The **Evolution X3** is a professional grade, self contained cold water pressure washer with built-in hose reel, cord holder, and lance. The 220 volt **Evolution X3** is a **green alternative** to gas engine versions.

- 2300 PSI, 3.0 GPM – 220V
- Professional plunger pump
- Brass head ceramic plungers
- Delayed total stop
- Rated 8 hours per day usage (4 + 4 hours continuous usage)
- Built-in chemical tank/dispenser
- Available hot water seals
- Built-in hose reel

Hot Water Electric

Mitho Plus 1200

The **Mitho 1200 Plus** is a self contained pressure washer in a compact design with easy portability on four 10" wheels. It plugs into any standard 110 VAC outlet and provides superior cleaning with hot water up to 195° F. The **Mitho** is perfect for the occasional cleaning jobs where hot water is needed.

- 195° F max temp. (105° F heat rise)
- Aluminum head plunger pump
- Stainless steel plungers
- Bypass (no total stop)
- Rated 3-4 hours per day usage
- Built-in chemical tank/dispenser

Challenge

The **Challenge 1500** is a professional grade, self contained hot water high pressure washer. It has long life components in the pump and motor for reliability and offers a 4 level Safety Stop protection system. The **Challenge** is perfect for everyday hot water cleaning where only 110 volt electricity is available.

- 1500 PSI, 2.2 GPM
- 290° F max temp. (144° F heat rise)
- Professional plunger pump
- Brass head ceramic plungers
- Delayed total stop
- Rated 8 hours per day usage
- Built-in chemical tank/dispenser
- Anti scale system

Sync

The **Sync** is a professional grade heavy-duty hot water pressure washer. It offers a high quality 1750 RPM tri-plex pump with a brass head and long life ceramic plungers, the Total Timed Stop Control offers safety.

- 2000 PSI, 4 GPM
- 290° F max temp. (144° F heat rise)
- Professional plunger pump
- Brass head ceramic plungers
- Delayed total stop
- Rated 8-10 hours continuous usage
- Built-in chemical tank/dispenser
- Anti scale system

HPS

The **HPS** is a professional grade heavy-duty hot water pressure washer designed to handle the toughest jobs. It offers a high quality 1750 RPM tri-plex pump with a brass head and long life ceramic plungers, the Total Timed Stop Control offers safety.

- 2400 PSI, 4.8 GPM
- 284° F max temp. (142° F heat rise) 1Ph
- Professional plunger pump
- Brass head ceramic plungers
- Delayed total stop
- Rated 8-10 hours continuous usage
- Built-in chemical tank/dispenser
- Anti scale system
