Max. Temperature	190°F
Max. Pressure	200 PSI
Box Dimensions	18.5" H x 21" W x 20" D
Ship Wt.	30 lbs.
Pallet Qty.	16 reels
Warranty	2 Years

Dimensions:

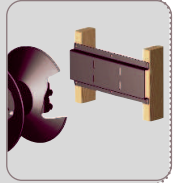

Available Colors:

Hunter Green	UPC Code: 701600-002325
Black	UPC Code: 701600-001854
Almond	UPC Code: 701600-001946

Features:

Interlock Wall Plate

Our exclusive interlock design makes installation quick and easy. It also allows the reel to be removed for safe-keeping or winter storage in just seconds. Purchase additional wall plates and use the same reel in multiple locations.

Weather Resistance

Containing special agents for extreme durability, our high grade, powder-coat paint is baked to the steel in a 400°F oven, creating a hard, smooth finish that stays attractive for years.

Swivel

With a "full-flow" design, solid machined brass, and smooth-action, ball-bearings, this 3/4" swivel has a life expectancy exceeding 10 years!

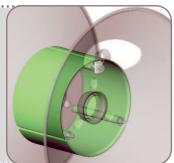

4 ft. Inlet Hose

Used to attach the reel to the spigot, this 3/4" Goodyear® Horizon™ hose features crush-proof machined brass fittings, weather resistant EPDM rubber, and reinforced spiral synthetic yarn.

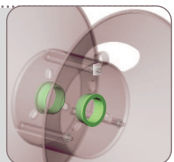

Solid Surface Drum

A durable steel drums provide a smooth, circular surface for your hose to wrap around. No sharp corners, bends or openings. Extends hose life and allows for easy, even wrapping of the hose.

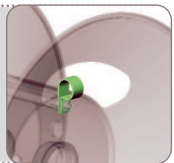

Smooth Spin Bushings

Pressed between the reel and the axle, these durable, long-life bushings will keep your reel spinning smoothly for years. Completely maintenance-free.

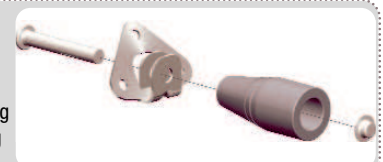

Loop-n'-Clamp Design

This innovative method of securing the hose to the reel extends the life of both the hose and reel by protecting the swivel and hose fittings from hard pulls.

Comfort Grip Handle

Riding on a solid steel shaft, this free spinning handle makes winding the reel easy. Made from a high-strength material, this full-palm handle is virtually unbreakable.
